FOREWORD BY RICHARD FORTMAN (RLF)

Aside from his grandmaster rating in over-the-board play, Richard J Pask has proved to be the most prolific author of draughts (checkers) books dating back over two centuries to the age of Joshua Sturges, London, England, 1800. His first major title was *Key Landings*, published in 1989 (First Edition), which was widely accepted. This was followed with additional books over the next 15 years, covering all aspects of the game; including openings, midgames and endings. However, in this writer's opinion, his latest effort will be the crown jewel of this collection, being an index to the complete published games of the late world champion, Dr Marion F Tinsley: a veritable galaxy of cooks and counter-cooks; together with a few scattered losses and the odd blunder or two, proving that geniuses, along with Homer, tend to nod at times. Dr Robert Shuffett, in his monumental *Checkers The Tinsley Way*, blazed the trail with his collection of 732 games covering the period 1946 to 1981. The book before you completes that journey, with updates from 1982 down to MFT's final match games against Dr Jonathan Schaeffer's world class Chinook program at Boston in 1994; along with earlier games which escaped the net.

I first met Marion in the spring of 1946. He was then in the Naval Training Centre in Chicago, and came down to the annual state ty in Paxton, preparing to play as a tune-up for Willie Ryan's Newark ty later that year. However, Bobby Martin alerted the playing committee as to his strength, and he was barred as a non-resident. This cemented a friendship that endured over the next 46 years, down to his final visit to my home in Springfield in March 1992, where he spent a week in search of what he liked to call 'golden nuggets' among my many mail games and letters, in preparation for his match later that year against the Chinook program. This proved to be the most difficult of his 50 year career. Suffering from jet lag and insomnia during the first week of play, he fell behind by 2 games to 1, but came back strongly during the second week to win the match 4-2.

Although his profession as a maths professor at both Florida State and Florida A & M paid his living expenses, his true and abiding love was given to checkers; while freely admitting that 'it butters no bread'. After dominating all his human opponents, he retired, and was only lured back, at the age of 65, by the challenge presented by Chinook. Writing to me from London at the conclusion of this encounter he said 'I am beginning to feel like an old man! No more 40-game matches for me.' In view of this, and knowing full well that the program was gaining strength while he was losing the same, he might have returned to retirement, but he generously offered Dr Schaeffer a return match.

After playing in the 1994 US Nat ty with an upset stomach, remedied only by Maalox, he was advised by his twin sister Mary to see a doctor, but he declined, feeling that his strong religious beliefs would carry him through. As it turned out, the return match with Chinook was cancelled after just 6 draws, when Marion told Jonathan he was unable to continue because of his health problems. A later MRI scan at the hospital disclosed a small tumour on the pancreas, which was later found to be cancerous, and after undergoing chemo treatments at a Boston hospital for several weeks, he was discharged at Mary's request. During the drive back to Mary's home in Texas, Marion asked that they stop at Petal to visit his old friend Charles Walker. As Charles told me later, 'I was

shocked and saddened to see him – a walking dead man.’ From there to Houston, where Marion passed away on 3rd April 1995. It can be truly said that ‘We shall never see his like again.’ Rest well old friend – you will never be forgotten.

INTRODUCTION

The inspiration for this project came from a chess book! In an entertaining and informative fashion, *A Legend On The Road*, by John Donaldson, details Bobby Fischer's 1964 simultaneous exhibition tour of the USA. Might not I produce a similar book based upon Dr Tinsley's (MFT's) tour of the UK and Ireland in 1957 & 1958? Read on ...

ORIGINS

It was in March 2006 that I had this idea, but it didn't last long. Just how many of these exhibition games had survived? And how many opponents for that matter? The amount of effort involved would be enormous; the resulting gain likely to be very small. Perhaps there was merit in compiling a detailed index to all of MFT's published games though? As far back as 1980, shortly after I'd come into the game, I'd started to earmark the games of MFT, with a view to compiling a private MS, but upon the publication of Dr Shuffett's *Checkers The Tinsley Way (CTTW)* in 1982, the entire project was shelved. Now, almost twenty-five years later, the time seemed ripe for a thorough review. MFT had played many games between 1982 and 1994, and I was aware of numerous earlier ones which hadn't found their way into CTTW, so it was just a matter of updating. Simple!

METHODOLOGY

As the references throughout this book reveal, over the coming year a tremendous amount of research was undertaken and, in the manner of Maurice Chamblee, I questioned everything. Although CTTW, Basic Checkers, Solid Checkers and the 3-move international matches were my starting points, I actually looked at all the key material I possessed from 1944 onwards (when MFT began his practice games with Asa Long). This meant everything listed on Page iii! Accuracy was my watchword, and for every game I sought to give the correct ballot, move order, opponent, date and event, together with the most useful reference. Generally, but not always, this was the one with the best available annotations; very often by Richard Fortman (RLF). The extent to which I succeeded will, of course, only become apparent as the years go by ...

COMPLETE?

There is one obvious way in which this book is not complete: the games are only given to a certain point; a depth of around 24-26 moves. It was Derek Oldbury, writing in Volume 1 of his remarkable *Complete Encyclopaedia*, who argued the case for indexing; both as a means of avoiding much tedious copying out, and as a way of valuing, and encouraging the purchase of, the original sources. I have taken him at his word and, although I know it won't meet with universal approval, I'm happy with the result. Previous books have been devoted to the games of Dr Robert Yates, Dr Marion Tinsley, Alex Moiseyev and, rather feebly by comparison, myself; this is the first book to index a player's games. Perhaps it will set a trend? Alternatively, having provided this database, it might encourage others to write further books about MFT; the scope is endless. Also, the book is without diagrams or annotations. Why? Well, firstly, such a book would require about 1300 pages and, secondly, why reinvent the wheel? The annotations are there ... waiting to be read.

Another obvious 'hindrance' to completeness is the number of practice games which we know MFT played: against, among others, Don Lafferty, Richard Fortman, Milton Loew,

Norman Wexler, Carroll Binsack (around 200 according to MFT in Checkers 1/88 P10), and Asa Long (again around 200, between 1944 and 1954, according to MFT in World Title Checkers P1); only a relatively small number of which have made it into print. That said, the large number which have survived, 189, might be viewed as a bonus; there being no obligation for the participants to make any of them available. While on the subject of practice games, two words of warning. Firstly, they are, quite rightly, often of an experimental nature, as the Chinook team discovered to its cost in 1992!, and not necessarily representative of what a player would do in competitive play. Secondly, in a few of the MFT-Lafferty games, some sources refer to joint analysis and some of them games.

Similarly, only a tiny proportion of MFT's simultaneous exhibition games have been published.

Of more serious concern is the number of missing competitive games. Of 1066 tournament games, I have found 575. Of 510 match games, I have found 471. Admittedly, many of these tournament games may have been fairly inconsequential, or featured relatively weak opponents or, in some instances, consisted of rather perfunctory draws, but the fact is they are missing. Although the situation improves enormously when you consider the 10 ACF National Tournaments in which MFT competed – 259 games published out of 310 (he lost just 1 game!) – it's still not perfect. So, rather like Tommie Wiswell who, in the introduction to *Learn Checkers Fast* warned readers not to expect to learn the game quickly, I would caution readers that, although this book gives MFT's complete games, it's not actually complete! **Note:** On the subject of tournament games, the round-by-round scores I have given were compiled through a combination of the use of a range of sources and informed guesswork. It is the most provisional element of the book, and corrections are cordially invited.

CTTW

In his thought-provoking book *One Jump Ahead*, Dr Jonathan Schaeffer describes how he literally dissected CTTW during his preparations for the MFT-Chinook match. In total, he counted 732 games and over 100 typographical, and other, errors. There are three points to be made here. Firstly, although I agree with the figure of 732 games, I'm sure I arrived at it by different means! (See *Among The Games*.) Secondly, along with Dr Schaeffer and the entire checkers/draughts fraternity, I'd like to thank Dr Shuffett for his efforts in producing such an attractive and invaluable book. Thirdly, I'd like to explain my approach to the errors to which Jonathan referred. History shows that, unless compiled by the author himself, any line-by-line set of corrections, no matter how well intentioned, always comes across as sniping and petty. That said, errors should not be allowed to stand. Therefore, where the errors are minor, I have simply absorbed the corrections into my text. In the few instances where they are substantive, I have made explicit reference to them. Hopefully, I haven't introduced any new ones of my own!

THE GREATEST?

Three names typically feature in this discussion: Richard Jordan, Samuel Gonotsky and MFT. (In terms of their dates of birth – 1872, 1901 and 1927 – they could, theoretically, all have competed at Newark in 1946!) However, although comparing players from different eras is somewhat problematical, I believe an overwhelming case can be made

for MFT being the greatest of them all. It rests on the following:

- His knowledge of published play;
- His remarkable creativity;
- His unsurpassed competitive drive;
- The accuracy he demonstrated in all phases of the game: opening, midgame and ending;
- The complete domination he demonstrated over his peers during a period of some 40 years – winning tournament after tournament, and match after match;
- His aggregate results: played 1576, won 449, lost 22 and drawn 1105.

A fascinating book, *Man v Machine: Kasparov-IBM's Deep Blue*, by Raymond Keene, Byron Jacobs and Tony Buzan, goes one further, citing MFT as one of the greatest, if not the greatest, mind sports champions of all time. It's hard to fault their argument.

PERFECT?

Just prior to the start of the 1992 MFT-Chinook match, Raymond Keene asked me to gather predictions from the leading draughts players who were present. I well remember Bill Hartston's surprise when the majority of them said they expected MFT to lose at least one game. (My prediction was 3-1 & 35 draws.) The reality is that, although 'as close to perfection as humanly possible' (Jonathan Schaeffer), the immense difficulty of the game meant that, throughout his career, MFT always made the occasional error. Aside from the 22 competitive losses, there were games where he missed wins and where his opponents missed wins. 'Having got a grandmaster into a loss, the next problem is to beat him.' (Richard Fortman) While no one wanted MFT to beat Chinook more than me, the two losses he suffered, both of which were earned wins, were healthy for the game inasmuch as they re-demonstrated its remarkable scope. One way of assessing the difficulty of the game, and the extent to which MFT mastered it, is to track his performance against Chinook.

- 1990: MFT won 1-0 & 13 draws. MFT clearly demonstrated his superiority in this short match, but Chinook's performance was excellent, and showed that it was just a matter of time before computer programs became pre-eminent.
- 1992: MFT won 4-2 & 33 draws. MFT was again best, but here Chinook broke the 'psychological' win barrier, and brought enormous pressure to bear on the human player.
- 1994: Match abandoned after 6 draws. In my opinion, MFT would have edged this by one game had the match gone the distance, but a strong case could be made for the players being even in strength at this stage.
- 2007?: With its 10-piece databases, in my opinion Chinook would be the narrowest of favourites to win against a full strength MFT in an extended match; although the latter would have an outside chance of winning 1-0 & 39 draws.
- Against a perfect version of the program – one which never went into a loss, and never missed a win -, I would predict the following. Five drawn 40-game matches, and five matches finishing 1-0 & 39 draws: a total of 5-0 & 395 draws in Chinook's favour.

Backgammon authority, Bill Robertie, assessed the 'complexity number' of checkers as 8;

this being the number of 'skill differentials' (SKDs) between the greatest ever player and the greenest novice. (A one SKD difference meaning that the stronger player would beat the weaker player 75% of the time.) Taking a four-game heat to represent one 'unit', a perfect Chinook would thus draw with MFT on 95 occasions and win on 5 of them: a 52.5% - 47.5% edge. Personally, I would rate the complexity number of checkers as 10, with Chinook scoring '10+'.

Two points are worthy of note. Firstly, there is an enormous case of diminishing returns in operation here; Chinook's ever-increasing theoretical advantage hardly being matched by the practical results. And secondly, MFT's extremely positive approach towards computer programs. In terms of re-demonstrating the scope of the game, bringing it to the general public's attention, acting as an ever-willing assistant, giving everyone ready-access to a world-class opponent and establishing that the game has a sound theoretical basis, they have done a remarkable job.

MFT: THE PERSON

I met MFT at length in both 1983 and 1992, and found him to be not only an incredible player, but a wonderful, warm person too. When your hero exceeds your expectations, it's special! Unfortunately, space does not permit a biography here but, again, there are many excellent sources: America's Best Checkers: pp 169-170 by RLF; The Inside Story by RLF: American Checker Federation Bulletins #255 - #272 (18 parts); Return Of The Master by RLF: Checkers 2003 pp 13-53; Obituaries in The Times, The Daily Telegraph and The Independent; An autobiography: Checkers 2003 pp 54-58.

MFT: HIS STYLE

Leo Levitt described MFT as the most aggressive opponent he had ever played; Norman Wexler said that he was the most radical, crediting Walter Hellman with establishing defences to the former's attacks; Clayton Beebe felt MFT was somewhat inhibited by his record of hardly ever losing; RLF detected a tendency to simplify from an early stage in MFT's career, although the latter begged to differ; Derek Oldbury implicitly acknowledged the psychological difficulty of facing him in International Draughts And Checkers Page 57; William Fraser acknowledged it explicitly; Alex Moiseyev described MFT's style as 'successful'; MFT denied the existence of style at all. What is undeniably true is that he somehow managed to win consistently while maintaining a sound defence. The question is: when he played against himself, did his attacks or his defences gain the ascendancy?

OPENING CONVENTIONS

Suffice to say that, in spite of his matches with Banks and Fraser, MFT was not in favour of a proliferation of styles, being a strong advocate, as I am, of the 3-move restriction; his incredible results negating the ludicrous claim that it is essentially a lottery. (Speaking of which, not all of the games in this book arose from the 3-move ballot.) I think he viewed the 11-man ballot system as too radical (I agree), and the 2-move ballot as too drawish. According to Derek Oldbury, privately he had a higher opinion of GAYP than he would admit to in public. This is the convention which will always find favour with the population as a whole, and matches played for the title since 1976 prove that it is far from being exhausted. It is the unadulterated version of the

game, and is worthy of continuing support.

ENDGAME

Virtually a year to the day after starting, my long journey has come to an end. Three things have kept me going: the support of my family, the encouragement of RLF and the knowledge that MFT was well worthy of the effort. Perhaps when I'm 60 I'll write another draughts book, but in the meantime I'll concentrate on my family, my career, my own game and my academic work. I hope you enjoy the 1287 games before you, and would advise you to check carefully before assuming you have found an error or an unknown gem. I leave the last word with Marion: 'Checkers is fundamentally a test of what you can see, rather than what you can remember.'

**Yours sincerely,

BITS & PIECES / STOP PRESS!

- Derek Oldbury's assertion that Walter Hellman was his greatest opponent does not tally with the facts. Nonetheless, in their 1955 WCM some authorities thought Hellman might defeat MFT, and after 20 games could easily have been leading 1-0 & 19 draws!
- Harold Freyer did not have an even score with MFT! In a 4-game match played in 1948, MFT won 1-0 & 3 draws. (ECB P3977) Perhaps MFT viewed these as practice games – I'm sure Harold didn't -, as otherwise **his overall score would read: played 1580, won 450, lost 22 and drawn 1108.**
- WTC, although ostensibly MFT's book, was largely produced by RLF, although much of the former's analysis adorns its pages. The advice given by MFT, both here and in Chamblee's CATE, is invaluable. Similarly, as I understand it, ID&C was largely produced by Derek Oldbury, although MFT's contribution was, as ever, extremely illuminating. Lastly, after his 1992 match with Chinook, MFT was asked to write a beginner's book. He generously offered me the opportunity to co-write it with him, but my academic studies prevented this.
- MFT once casually remarked to me that, assuming a different 2-move ballot was played on each board, he was confident he could play 43 games simultaneously blindfolded.
- After MFT had played 10 practice games with Ron King, Don Lafferty remarked that the score was even: 5-0 & 5 draws in MFT's favour!
- In his younger days MFT was a strong advocate of the 5 minutes-a-move rule; strongly geared to the springing of cooks, and indicative of his competitive nature. As he grew older, he seemed happy to play with clocks.
- MFT's preferences in simultaneous exhibitions make several appearances in the literature. 1) 11-16 23-18; 9-14 (ID&C P132); 2) 11-15 23-18; 15-19 (ID&C P68) – MFT indicated he wanted this, rather than the Cross, when he played me in the 4th international match!; 3) 11-15 22-18; 15-22 (BC5 P31).
- Having lunch with me shortly before the 39th and final game of the 1992 match with Chinook, MFT remarked that he was hoping for a quiet ballot with which to finish. '9-14 24-19; 11-15?' I suggested. 'No, too much scope there,' he replied. Interesting. Recognised from The Times by a couple at the café, he engaged them charmingly in conversation for a full ten minutes. What a gentleman.
- Voluntarily transposing into a weaker ballot during his 1994 match with Chinook, and then forgetting the continuation, was indicative of MFT's poor state of health. Successfully defending the horrendous ending which resulted was testimony to his amazing fighting spirit.
- In WCC2, P47, MFT says that he must have played an old Bristol-Cross line on hundreds of occasions – presumably in simultaneous exhibitions -; giving rise to strong criticism from DEO.
- In 1983, while I was running up a game from 9-13 24-20; 10-14, MFT pointed out that I was getting the move order wrong. Forgetting myself, I said that I was quite correct in terms of what the book stated. 'I'm not disputing that,' came the reply. 'I'm just telling you what's right!'
- Although history shows that in an extended 3-move match the better player wins, one way of avoiding the drawing of a large number of tame ballots (say), would be as follows. Divide the 156 ballots into 4 sections of 39, according to their

degree of ‘difficulty’ (I, and others, have produced provisional figures for this.). Then draw in turn from each section as the match progresses. (Only 144 of the 156 ballots feature in this book, as ‘The Golden Dozen’ had not been approved for crossboard play during MFT’s time.) As this book reveals only too clearly, all the ballots have merit, wins being scored on the ‘easiest’ ones as well as the ‘hardest’, so I would be completely against the removal of any of them. Incidentally, but for the close proximity of the players, in tournaments the game could take a lead from duplicate bridge, and use the same ballot at every board!

- Some partial games which didn’t make it into this book. 1) See BC4 P60. In a letter to RLF, MFT refers to having played ‘many games’ on the 26-23 line before the Cornell game, ‘but none after!’ 2) 1990 US P6, Note A. A Chinook-MFT practice game from 9-13 22-18; 6-9. 3) A Chinook-MFT practice game, probably from 10-14 23-19; 6-10. See CHCKS 3/91 P4 and OJA P189. 4) CHCKS 2003 P14: 2 draws with Don Lafferty on 9-14 24-20; 11-16 5) CHCKS 2003 P15: 4 draws with Elbert Lowder on 11-15 24-20; 12-16 & 10-15 23-18; 7-10 6) MISS 2/07 P5: 4 draws with Ed Markusic on 9-14 23-19; 5-9 & 11-15 22-17; 8-11 7) 9-13 22-18; 12-16 24-20; 8-12 27-24 3-8 18-14; 10-17 21-14; 16-19: a win with White against Markusic ‘in a Florida ty.’ (MFT) 8) 11-16 21-17; 16-20 17-14; 9-18 23-14; 10-17 22-13: A win with Black against Leo Levitt (MFT). 9) MWC P146 & P155: Endgame between MFT and RLF. 10) 1951 Practice game won by MFT with Black against Maurice Chamblee: 11-16 22-18; 16-20 25-22; 8-11 23-19! 11) Game #1053: A letter from MFT reveals that this actually arose from 11-16 22-18; 16-20 and that there were slight move order differences in the midgame. Moreover, MFT had won this earlier in a 1947 practice game with Lloyd Taylor – the total’s growing! – while Chamblee was looking on! **Overall score: played 1288, won 359, lost 29 and drawn 900.**
- 1996 I-D P8: 9-13 22-18; 12-16 18-15! – William Fraser reported that Eugene Winter told him at Peoria in 1962 (sounds like a Tony Curtis joke from ‘Some Like It Hot’!) that MFT sometimes used this line with White.
- ECB 6/66 P6742: A white win in a practice game against an unnamed opponent from 9-14 22-17; 6-9. Make that: **played 1289, won 360, lost 29 and drawn 900!**
- Again I leave the final word with MFT. In a letter written to RLF in 1981 he states: ‘It appears inevitable that many games will be omitted [from CTTW] since I must have played 3000 or more!’ [I presume, and hope!, that he was including practice games and those played in simultaneous exhibitions! AMONG THE GAMES

9-13s

Game 9 & Game 10: While it is perfectly possible that the same, well established draw, was played against the same opponent on two separate occasions, it does seem a little unlikely.

Game 15: CHCKS only refers to MFT and D. Lafferty analysis. A letter from RLF specifies a game between MFT and Checkers 3.0 but, unfortunately, no further play is available.

Game 18: Understandably, Leschinsky failed to negotiate Jackson's Draw correctly (Classic Late Midgame Position #10).

Game 19: As I pointed out in 1983, Black has a simple draw @ 39th move with 1-6!

Game 20: A letter from MFT to RLF gives the date as 1948.

Game 29: A contemporary newspaper column, with notes provided by Binsack, specifies that this was a practice game played at the 1947 Ohio Ty.

Game 36: It is worth stating once that here, as with many of the 1969 practice games, the year is often given as 1970. (And vice versa!)

Game 37: A letter from RLF makes it clear that MFT actually won this game, and it was not merely analysis.

Game 49: This is given under 10-15 22-17; 9-13 in CTTW. We simply don't know which ballot it actually arose from.

Game 53: Some sources give this as 1957.

Game 57: DEO's *Square World* (Page 48) gives a different move order, but I have more faith in the text version. RLF's notes say this game was played the evening before the WCM itself, but there is no record of MFT having given such an exhibition so I assume DEO was the exhibitor.

Game 62: The order of moves in CTTW is faulty, and permits a quick white win which was never on the board. When I showed this to MFT in 1983, he clapped a hand to his forehead and exclaimed 'Surely no one thinks I missed that!'

Game 78: Unfortunately, no continuation is available.

Game 88 & Game 89: A careful reading of the 1956 US Nat Ty notes will show that these were the 2 games played between MFT and A. Cameron, and that CTTW is in error here.

Game 90: A little bit of artistic licence here: a note from RLF indicates that 'the standard draw' was played on both sides, and this would appear to be the most likely move order when MFT was black.

Game 113: Finely played by Scheidt, who demonstrated a good understanding of Robertson's Draw (Classic Late Midgame Position #8).

Game 118: Here, Stacey missed a rare – perhaps once-in-a-lifetime! – chance to win using Fred Allen's famous double-pitch.

Game 123: Unfortunately, no continuation is available.

Game 138: Two points. Firstly, a letter from RLF states this definitely arose from this ballot, rather than 10-14 23-19; 6-10 as given in CTTW. Secondly, it specifies some minor differences in move order in the midgame. The text appears to be the more popular version, so I have given it preference.

Game 157: No record of this game was kept, so the moves given simply represent the most likely continuation.

Game 163: Hardly a classic win, but I am nonetheless grateful to 'Bill', who showed me

this win in the early 1980s. There must be many such unpublished simultaneous exhibition games lying around!

Game 177: The ECB reference gives the correct continuation; that in CTTW is faulty.

Game 185: Black seems to have resigned at an incredibly early stage. Surely more moves were played than this?

Game 188: In CCC the names are reversed, but this wouldn't seem to make a lot of sense, so I take it to be in error.

Game 214: Unfortunately, no continuation is available.

Game 222 & Game 223: RLF gives detailed, and different!, annotations to MFT's 1982 Southern Ty games in both the 1993 and 1996 CHCKS Annual. However, I haven't bothered to give dual references each time.

Game 229 & Game 230: Another piece of artistic licence. A letter from RLF states that two standard Wagrams were played here. I assume that these were they.

9-14s

Game 234: The game continued with 15-18? 22-15; 11-27 19-15; 10-19 17-1; 19-23 13-9 and Black was caught in a bad ending.

Game 243: Two different continuations have been given, and I doubt we'll ever know which one is correct. My personal preference is for that quoted in the 1976 ty book.

Game 254: This game actually arose from another ballot, and wasn't caught by me until later (1). The correct run-up is 11-16 22-17; 16-20 25-22; 8-11 17-13; 9-14 24-19; 11-15 29-25 and into the game as given.

Game 258: On the face of it, White missed an extremely powerful attack at the 22nd move (22-18! for 32-27), but I suspect that both this and Game 264 were rather perfunctory draws, and that the move order given may be faulty. (See also CHCKS 2003 P29.)

Game 270: A definite case of educated guesswork! In MFT's own words, Game 369 represents the game he played with black against Ryan, so someone else played white here! We know from ECB that this ballot was played in the Cox match. We also know that Wiswell and Cox were good friends and that Wiswell favoured this 27-24 line, so my feeling is that Cox is the man in question. Any other offers?

Game 321: Two different move orders are given in the midgame, and it's impossible to know which one is correct. On this occasion, I've stuck with the CTTW order.

Game 369: This game actually arose from another ballot, and wasn't caught by me until later (2). The correct run-up is 9-14 22-18; 5-9 24-20 and into the game as played.

10-14s

Game 398: Using Kingsrow's database, Ed Gilbert confirmed that the position as left in the given reference is a white win. Don deserves one!

Game 412: The game continued 7-14 21-17; 14-21 29-25; 21-30 31-26; 30-23 27-4. White Win.

Game 423: A little bit of artistic licence here. The continuation is not known, but it is not unreasonable to assume that it is similar to the later McCarrick game. (#417)

Game 425: This game actually arose from another ballot, and wasn't caught by me until later (3). The correct run-up is 11-16 24-19; 8-11 22-18; 10-14 25-22; 16-20 and into the game as played.

Game 440: The move order is incorrect in CTTW.

Game 469: The continuation was identical to game 467.

Game 474: Firstly, the date is estimated, but RLF states that the game was definitely played between 1944 and 1948. The continuation was 9-18 19-15; 7-10 15-6; 1-10 25-22; 18-25 27-18; 2-6 29-22; 6-9 ... and White resigned shortly afterwards.

Game 475: Unfortunately, no continuation is available. It should be noted that 8-11 is an improvement on 3-7, as played in the earlier game.

Game 480: Two distinctly different move orders are given in the midgame. Mine differs from that given in CTTW, but it could be that my choice is erroneous.

Game 483: Given the ECB reference, I suspect the match with Cox was played on the 2-move restriction rather than the 3-move restriction. Hence 10-14 24-19 was balloted, with MFT selecting 6-10 and Cox choosing 11-16.

Game 486: The continuation was 1-5 27-24; 16-20 32-28; 20-27 31-24; 11-15 24-20; 15-24 28-19; 14-18 22-6; 13-31. Drawn.

Game 496: This game actually arose from another ballot, and wasn't caught by me until later (4). The correct run-up is 10-14 24-19; 11-16 28-24; 7-10 and into the game as played.

Game 507: As the later ECB reference makes clear, Chamblee did not fall for the same shot as Cox, and MFT didn't miss it! The original game was simply typed up incorrectly.

Game 509: Similarly, I do not believe the order of moves given in the '50 Games' leaflet – surely incorrectly typed?

Game 518: Although Mr Surgenor is credited with scoring the only win during MFT's tour of the British Isles in 1957, a newspaper report of the time makes it clear that he had considerable assistance once the win was 'on'.

Game 528: Using Kingsrow's database, Ed Gilbert confirmed that the position as left in the given reference is a draw.

Game 552: Unfortunately, no continuation is available.

10-15s

Game 570: Unfortunately, no continuation is available.

Game 578: 9-14 may well be a theoretical loss, but it's extremely hard to pin down across the board!

Game 584: Unfortunately, the full continuation is not available.

Game 589: Although not referred to explicitly in CHCKS, the newspaper article quoted mentions the Long-MFT practice game. To avoid repetition, when a date is followed by a question mark, it means I am giving my best estimate, or the most likely date among several which have been given.

Game 602: This actually arose from the 11-man ballot.

Game 603: This may not be the precise order of moves played in the actual game – we'll never know for sure -, but it's certainly a sound order.

Game 604: It's remarkable that this should predate the Ryan-Hellman game.

Game 607: Again, the move order given represents the most likely one: it may have been different.

Game 624: CTTW P137, Note C is one of several '**phantoms**'(#1) – double-entries -, and can be discounted; the P86 reference being correct. However, in order to get the complete game record, both sets of moves used need to be utilised, as a comparison will make clear.

Game 653: This followed exactly the same route as Game 654 throughout; on both occasions the spectators believing that White was going to win!

Game 774: This game actually arose from another ballot, and wasn't caught by me until later (5). The correct run-up is 11-15 24-20; 8-11 28-24 3-8 and into the game as played.

11-15s

Game 783: My research convinces me that Lafferty was Black in this game, not MFT as given in CTTW.

Game 800: There has been some slight disagreement as to precisely how many moves were played in this game but, in light of the other games, I think it reasonable to assume it substantially followed the course indicated.

Game 818 & Game 826: It is a moot point whether these two games are actually one and the same – they appear in CTTW on P110, Note D and P113, Note C, but on balance I have given them the benefit of the doubt. Interestingly, by far the most complete game record is presented CR under 9-13 23-18; 5-9!

Game 825: Rather like game 800, it is not entirely clear how many of these moves were actually played. However, also like Game 800, it is evident that nothing new was produced.

Game 848: A contemporaneous newspaper report insists that 26-22, rather than 25-22, was played at the first move of this variation.

Game 851: Some sources give 27-23 before 25-22, and some give 25-22 before 27-23. Take your pick!

Game 857: My apologies for including this game! However, due to an error on my part, during the proof-reading process I had to delete a game, and included this one in order to restore the sequential numbering sequence.

Game 861: Unfortunately, no continuation is available.

Game 865 & Game 873: In these, as on other occasions, the original source contradicts some of the information given in CTTW: here the event in question.

Game 882: The game continued 9-18 17-14; 10-17 21-14; 12-16 32-27; 18-23 ... Drawn.

11-15 23-18; 10-14 CTTW P121, Trunk and CTTW P122, Note E are both **phantoms (#2 & #3)**, as they have already been shown under the correct ballot: 10-14 22-18; 11-15.

Game 890: Unfortunately, no continuation is available.

Game 896 & Game 897: As I understand it, MFT won the first game played (#897), but RLF found the correction required to draw a later game (#896).

Game 901: The continuation was 18-25 29-22; 1-5 31-26; 13-17 22-13; 6-9 13-6; 2-18 ... Drawn.

Game 911: The continuation was 15-18 24-20; 18-27 32-23; 2-7 31-26 (recognise it?) ... Drawn.

Game 915: CTTW P124, Note C1 and CTTW P125, Note D both refer to the same game - **phantom #4** – and both exhibit the wrong order of moves. See the LVD 6DNL reference for the correct order.

Game 982: Unfortunately, no continuation is available.

11-16s

Game 994: The ACFB reference fills in the missing moves, and is an interesting read in its own right.

Game 1039: Derek Oldbury did not play in the 1977 Florida; Elbert Lowder is the only logical alternative.

Game 1131: Some sources give 1956 as the date.

Game 1135: RLF confirms that this game was played in the 1976 Florida, rather than the oft-quoted 1975 Florida.

Game 1136: CTTW P152, Note A1 & Note B both refer to the same game (**phantom #5**). Note B is the correct one in terms of the event, and *almost certainly* in terms of the move order.

12-16s

Game 1181: Occasionally the date of this game is given as 1955. Since MFT's practice games with Long are generally understood to have taken place between 1944 and 1954, I have favoured the 1947 date. Moreover, Derek Oldbury's 'correction' of this game in his *Square World* magazine appears to be based upon a faulty move order.

Game 1187: Some artistic licence has been employed here, as the precise order of moves in the opening is unknown.

Game 1194: It is very surprising that MFT should play 4-8 at the 11th move, having demonstrated earlier that 9-14 is unquestionably best, and I can only assume that this game was of a rather perfunctory nature.

Game 1200: This game actually arose from another ballot, and wasn't caught by me until later (**(6)**). The correct run-up is **11-16 21-17; 16-20** 17-13; 8-11 22-18; 9-14 18-9; 5-14 25-22; 11-15 24-19; 15-24 28-19; 4-8 22-18; 14-17 29-25; 8-11 and into the game as played.

12-16 22-18; 16-20 CTTW P164, Note B has already been presented under 11-16 21-17; 9-14 and is a **phantom (#6)**.

Game 1229: One source gives this as a game, and the other as joint analysis. I have opted for the former. Also, it's possible – there's no way of telling – that it arose from 12-16 24-19; 16-20

Game 1233: This game actually arose from another ballot, and wasn't caught by me until later (**(7)**). The correct run-up is **11-16 22-18; 16-19** 24-15; 10-19 23-16; 12-19 18-15 and into the game as played.

Game 1235 & Game 1236: Curiously, these 2 games transpose into each other at a late stage, as an examination will reveal.

Game 1257 & Game 1259: My hunch, and it is only a hunch, albeit one supported by RLF, is that these two games did indeed take place at Newark, but that MFT's opponent was not Everett Fuller as given in CTTW. This is based upon the fact that MFT played 6 games with Fuller in the first round (9-14 23-19; 5-9 & 11-15 23-18; 9-14 and 11-16 24-19; 8-11), and did not share the same preliminary group as him. However, MFT played Ray Gould in the eighth round, and none of these games has previously been shown. I doubt we'll ever know for sure!

Additional Games

Game 1266: The game continued 10-14 17-10; 7-14 31-26; 11-15 32-27; 2-7 20-16; 12-19 23-16; 14-18 26-23; 18-22 23-18; 15-19 18-15; 22-26 27-23. Drawn. In fairness to MFT, it should be pointed out that *he* didn't make any inferior moves in this game. A later, 1995, letter from RLF brought out some interesting MFT analysis on this ballot. Namely: 9-13 21-17; 6-9 25-21; 11-15 30-25; 9-14 24-19; 15-24 28-19; 5-9 22-18?; 13-22 26-17; 7-11 17-13?; 11-15 13-6; 2-9 18-11; 8-24 27-20; 4-8! 25-22; 8-11 31-27; 1-5 29-25; 9-13 27-24; 11-15 23-19; 3-7! Black Win.

Game 1267: The game continued 10-15 19-10; 6-15 13-6; 1-10 22-17 ... to a long White Win. Again, MFT didn't make any errors – indeed Black *should* have won!

Game 1268: 11-15 20-16! finishes matters.

Game 1271 & Game 1272: A certain amount of artistic licence here – this is almost certainly how the games went; we'll never know for sure.

Game 1274: Unfortunately, no continuation is available.

BALLOT-BY-BALLOT

Taking into account the comments made in the previous section – in other words, assuming all the games to be given under the correct ballot -, and adding in the additional games, these are MFT's wins, losses and draws.

4.) 1946 Nat Ty (Newark) (Played 55: 10-5-40)

Position: 2nd

Source: AC V5 P112

Details: MFT v E. Fuller: 0-1-5; MFT v M. Chamblee: 1-1-4; MFT v T. O'Grady: 1-0-5; MFT v W. Ryan: 1-0-3; MFT v A. Herman: 1-0-5; MFT v A. Bernstein: 2-1-3; MFT v C. Jolly: 2-0-1; MFT v R. Gould: 1-0-3; MFT v W. Ryan: 1-2-11 (Final)

Note: MFT also played 14 games in his qualifying group. However, all of these are long since lost, and they are not included in the aggregate result above.

5.) 1947 Ohio (Played 21: 8-1-12)

Position: 1st

Sources: ECB P31; AC V5 P174; CTTW

Details: MFT beat R. Wooden; MFT beat H. Mishler; MFT beat M. Smith; MFT beat M. Rex; MFT beat M. Rex (2nd time); MFT v R. Cornell: 1-0-5 (Final)

Note: Ryan's AC states that MFT did not lose any games in the ty. However, it is my belief that he lost one to Perry Gray in the *preliminaries*. This is based on the fact that it is known he lost a game to Mr Gray in one of the Ohio State tys. Mr Gray played in the 1947 event, but not in 1948. QED! (Whether this loss should be included in the aggregate result is a moot point. cf Newark.)
